Breathable

Comfortable

Lightweight

1 million pairs
or **200,000 meters** of

PERSPAIR® REPET

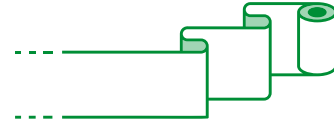

materials made by 50% recycled PET fibres saves:

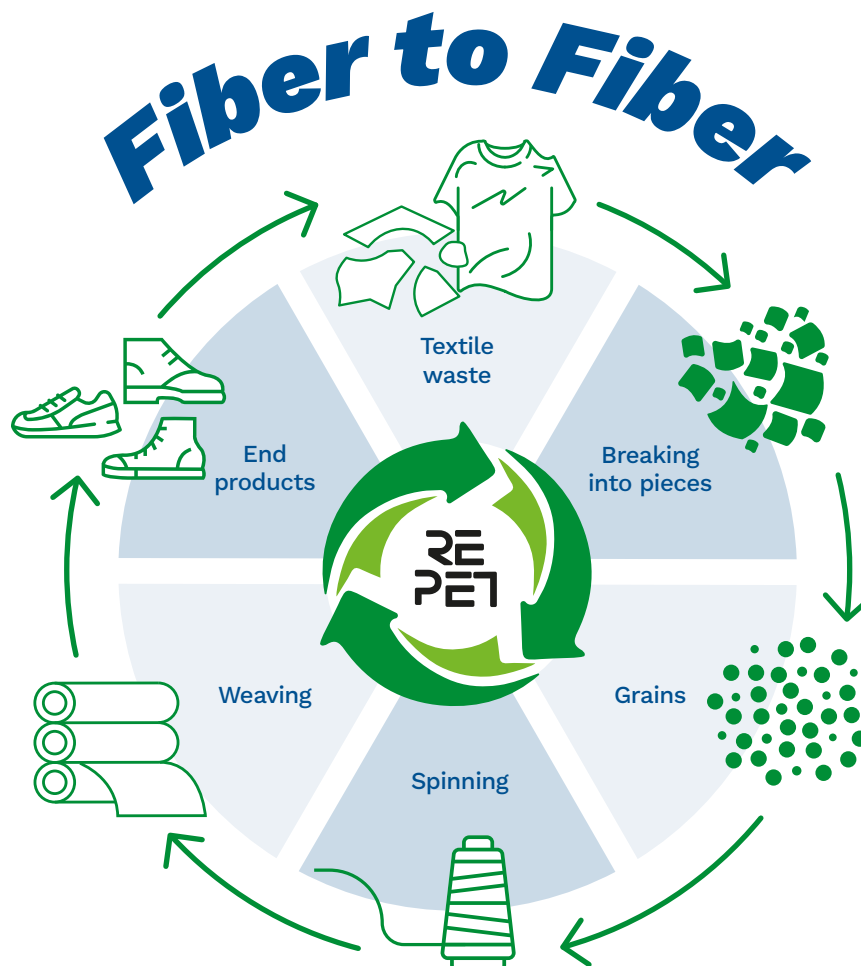

-480tons
of crudel oil

-90tons
of carbon
dioxide emission

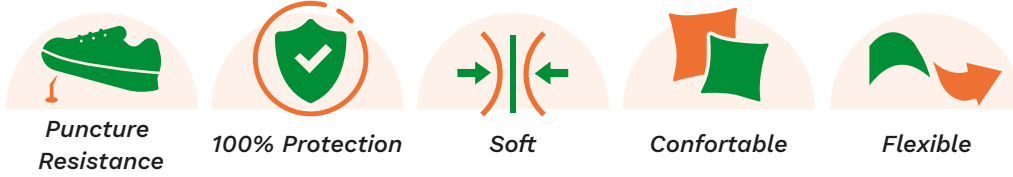

-50,000meters
of materials recovering and recycling
the waste coming from upper cutting

A line of environmental-friendly and high technical insole fabrics

Second life: recycled PET fibers obtained from recycling plastic containers and bottles

1 million pairs
or 50,000 meters of
L-protection®
REPET

materials made by 50% recycled PET fibres saves:

-120tons
of crudel oil

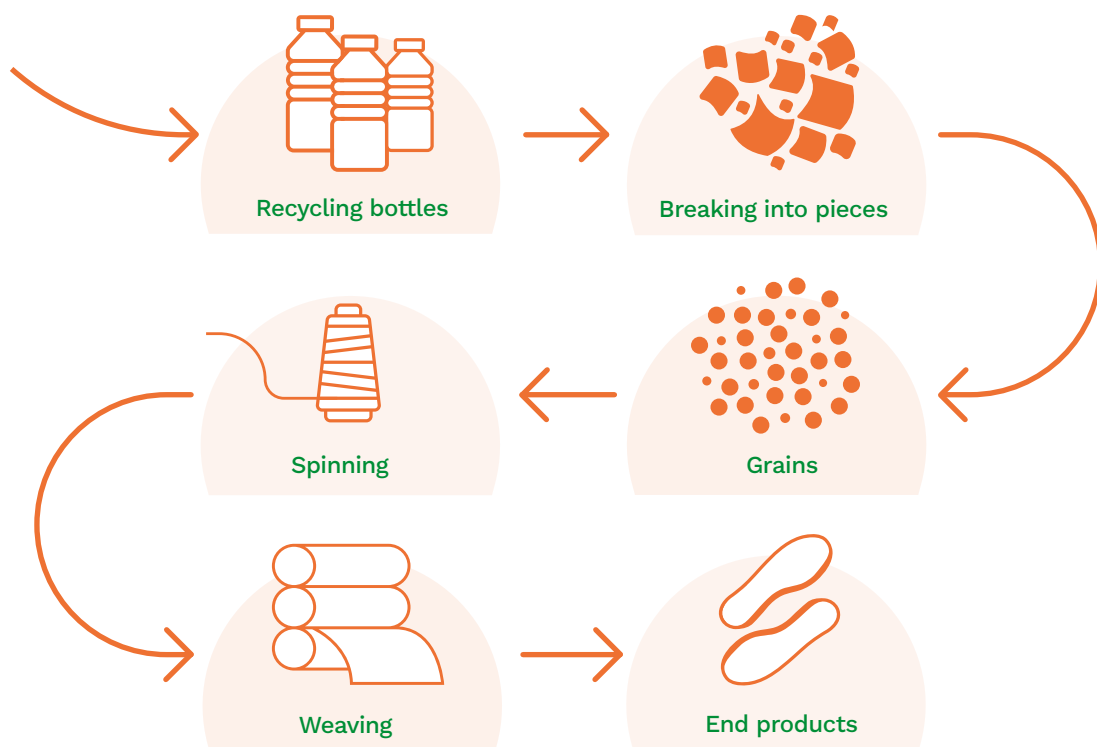

-23tons
of carbon
dioxide emission

-500,000
recovered bottles subtracting them
from nature and environment wastage

Bottle to fiber

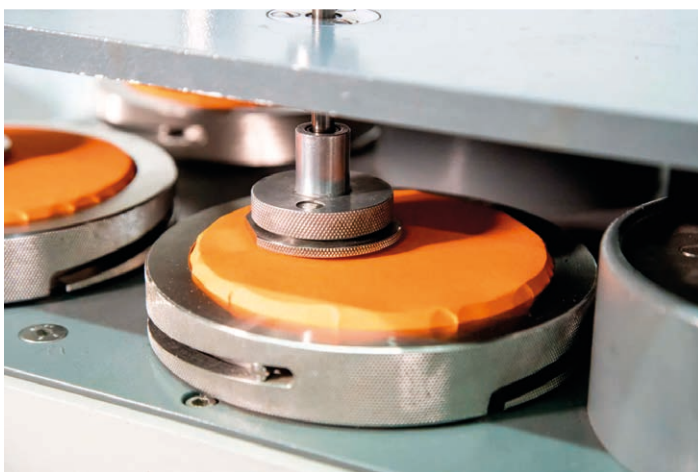

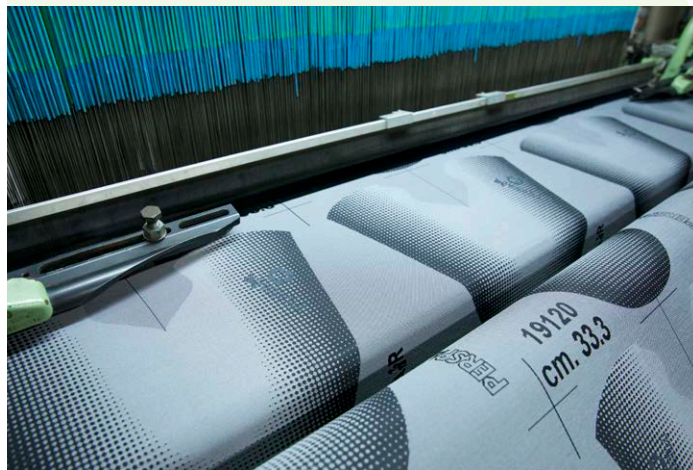

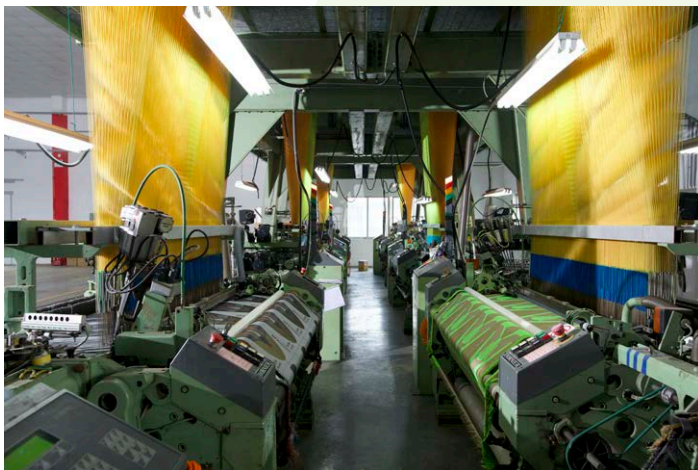

Our company

Guangzhou Vaiano Textiles Co., Ltd. (GVT) was established in 2008 in Panyu – Guangzhou – P.R. China, by Western management with extensive experience in the textile and footwear industry.

GVT is the exclusive manufacturer in Far East of L-protection® puncture resistant insole materials, Perspair® high performance woven fabric for upper.

We sell our products worldwide to shoe factories which work for Global Brands. Our company is located in an industrial area very well served by every kind of infrastructure (internet, roads, port, airport, railway, natural gas, water, electricity), which helps in the development of our business.

All materials are tested during production processes and before shipment, to meet our customers' requirements and international standards for footwear manufacturing. All production processes and quality control are supervised by Western management with experience in the footwear industry.

Thanks to in-house manufacturing, we have total control over production standards. Our mission is continuous research aimed at creating innovative products for the footwear industry.
